NEW JAPANESE CONSUL FOR
LONDON.

Mr. Takahashi Nakamura, who has been
Consul-General for Japan in Canada for
four years, has been appointed to the cor-
responding post in London. He will leave
for England at once.

Mr. Nakamura's promotion is regarded
as recognition of the success of the negotia-
tions with the Canadian Government for a
treaty, the first to be concluded based on
the Anglo-Japanese Treaty of 1911.

THE BROWNING LOVE-LETTERS.

The six days' sale of the effects of the
late Mr. Robert Wiedemann Barrett
Browning, the sculptor, began at Messrs.
Sotheby's yesterday, says the "Times".
Of May 2, and the love-letters of Mr. and
Mrs. Browning are to be offered to-day.
The efforts made by Sir Frederic Ken-
yon, of the British Museum, and others
to obtain a statement of the price at
which the letters might be secured for
the nation have not been successful, and
it is unlikely now that those responsible
will consent to exclude them from the
sale.

HEALTH TALKS.

Tonics: Their Use, Abuse and

Danger.

UNDER existing conditions, everyone

in China needs a tonic at some time.

Most of the drugs used for this purpose

are, however, merely temporary stimulants

which lose their effect soon after being

stopped; or powerful poisons, like arsenic

and strychnine, which should be used only

under the doctor's orders.

The need for tonics is, usually, that

people have made undue demands on their

nervous system. Alcohol, which so many

take to enable them to meet these demands

is one of the worst things they can use.

Apart from the reaction it causes, there is

grave risk of its seriously undermining the

general health.

Everyone will naturally ask:—What is the

best tonic? Let that distinguished physi-

cian, Dr. Claude L. Wheeler, answer. He

writes:

THE BEST TONIC.

Either to keep the nervous system of

the healthy individual up to the mark, or

to raise it to necessary efficiency when

attacked, not only protein (the body-build-

ing food) but phosphorus must be

forthcoming in ample quantities. This

applies with peculiar force when the body

forces are weakened from previous attacks

of illness, and the digestive organs are

unable to take up their proper quantity of

nutriment from the food.

"Obviously, a combination of pure pro-

tein with that form of phosphorus which

normally exists in the body and nerves will

be exactly what is needed in such cases.

Reasoning thus, Science has produced the

combination denominated. It is known all

over the civilized globe as Sanatogen.

"The debilitated nerves and tissues take

up Sanatogen as the parched earth drinks

up water. Sanatogen is in no sense a

stimulant. It is a food—a highly concen-

trated and very nutritious food—endowed

with special tonic properties and nothing

else.

Because of these properties, nearly six-

teen thousand physicians have certified in

their own handwriting to its value, while

every medical paper has printed articles

enthusiastically praising its power in the

treatment of nervous conditions.

Among these conditions are impaired

memory, lassitude, a feeling of physical

and mental debility, depression, so-called

"nervous dyspepsia," insomnia and nervous

exhaustion.

Soon after taking Sanatogen, the sufferer

is conscious of an unaccustomed sense of

well-being and fitness. Lassitude is lost,

sleep returns, his haggard expression

vanishes, his eyes grow clear and bright,

work is no longer a burden, but is done

with increased ease, and the underlying

meaning of the phrase "The Joy of Living"

as he has never understood it

before.

REMARKABLE STATEMENTS.

Mr. Harry de Windt, one of the most

distinguished travellers of the day, writes:

"I have derived enormous benefit from

taking a short course of Sanatogen. San-

atogen in a few short weeks has made a new

man of me, physically and mentally.

Mr. Alexander Cross, M.P., writes:—"I

have no doubt Sanatogen has had a material

effect in the vigour and physical fitness with

which I have been enabled to go through

my duties. It is only fair to say I have

been rather surprised at the results. They

have just been what you predicted."
